**Balance the Scales**

**Instructions:**

Draw notes or rests on the right side of the scales to equal the value of the notes or rests on the left side. You may use notes, rest, or a combination of notes or rest to equal the values. (Note: Do not use the same symbol that is shown on the left side to balance the scale.)

1. \[ \text{[Diagram of scale with a quarter note on the left]} \quad \text{[Diagram of scale on the right]} \]
2. \[ \text{[Diagram of scale with a rest on the left]} \quad \text{[Diagram of scale on the right]} \]
3. \[ \text{[Diagram of scale with a half note on the left]} \quad \text{[Diagram of scale on the right]} \]
4. \[ \text{[Diagram of scale with a half note on the left]} \quad \text{[Diagram of scale on the right]} \]
5. \[ \text{[Diagram of scale with a quarter note on the left]} \quad \text{[Diagram of scale on the right]} \]
6. \[ \text{[Diagram of scale with a rest on the left]} \quad \text{[Diagram of scale on the right]} \]
7. \[ \text{[Diagram of scale with a whole note on the left]} \quad \text{[Diagram of scale on the right]} \]
8. \[ \text{[Diagram of scale with a whole rest on the left]} \quad \text{[Diagram of scale on the right]} \]
9. \[ \text{[Diagram of scale with a whole note on the left]} \quad \text{[Diagram of scale on the right]} \]
